

Dear FCC, It has come to my attention that I may be in danger of losing my K-LOVE radio station, one of the very few I listen to. I urge you to consider how valuable this is to me and others in my community. I view radio listening much like tv or movies; If a show is not rated G or extremely mild PG my children do not get to watch it. I feel that much of radio is not G or PG and my children do not get to hear it. K-LOVE is rated G and it just about all they get to hear. My children hear a positive message and all of us are encouraged and uplifted by the messages and songs. Please do not take away the only music choice my children have; let them keep this choice. There are many listener comments aired on K-LOVE that tell me listeners appreciate and need this station. The pledge drive meets its goals each year to keep the station funded, so that tells me other people value the station as I do. We live in a world full of negative, please let us keep a station that brings us hope and encouragement. Don't we all need some hope? Please let us keep K-LOVE on the air.
